

Eastern Washington Chapter ACHMM

The Eastern Washington Chapter of the Academy of Certified Hazardous Materials Managers (EWC/ACHMM) has been formed to provide association activities for CHMM Members and Associates in the Tri-Cities area of Eastern Washington. The Chapter is dedicated to the development of professionals involved with all aspects of hazardous materials management. The mission of the Chapter is to provide a balanced program for Certified Hazardous Materials Managers in the following four areas: 1) Environmental Health and Safety; 2) Regulatory Compliance and Policy; 3) Science and Technology; and 4) Materials Handling, Emergency Response, and Remediation.

Certified Hazardous Materials Managers

Essentials of Hazardous Materials Management Certification Exam Preparation Course

May 4-6, 2010 at the
WSU CIC

Presented by:
The Academy of Certified Hazardous
Materials Managers:
Eastern Washington Chapter

The Essentials of Hazardous Materials Management

This course provides an up-to-date overview of hazardous materials management and regulatory information and provides working professionals with the current knowledge to maintain their proficiency. The course consists of a comprehensive review of environmental laws and regulations and basic health and safety principles. It is designed to help individuals taking the certified Hazardous Materials Managers national certification exam. Those interested in taking the exam should visit the IHMM website www.IHMM.org for details on the application process. **Applications should be submitted at least 6 weeks prior to scheduling the examination. The examination can be taken locally at Vivid Learning Systems, Richland WA**

Andrea Hopkins (509)539-
5520 or Mike Schmoltdt
(509) 373-5116

Become a Certified Hazardous Materials Manager.

Course Benefits:

This course provides an up-to-date overview of hazardous materials management and regulatory information. It provides working professionals with current information to help them maintain proficiency and broaden their knowledge of other disciplines.

Topics relating to safe, compliant, and effective management of hazardous materials management are reviewed.

Course Topics

- Environmental Laws and Regulations
- Chemical and Physical Properties of Hazardous Materials
- Resource Conservation and Recovery Act
- CERCLA
- NEPA
- Clean Air Act
- Clean Water Act/Safe Drinking Water Act
- TSCA
- OSHA Requirements
- Sampling and Analysis
- Radiation Principles
- Toxicological Principles
- Industrial Hygiene
- Asbestos, Lead and Pesticides
- Emergency Planning and Community Right to Know (EPCRA)
- Transportation
- Underground Storage Tanks
- Stormwater Discharge
- Groundwater Contamination and Hydrogeology
- Waste Minimization and Pollution Prevention

Who Should Attend:

Anyone planning on taking the CHMM certification exam or anyone simply wanting to improve their knowledge and understanding of Hazardous Materials Management should attend this course.

This course is very useful for technicians, engineers, scientists, facility supervisors and managers, and or regulators, who have assigned work scope involving management of hazardous materials and environmental, health and safety (EHS) responsibilities.

CHMM PROGRAM

The Certified Hazardous Materials Manager® (CHMM®) credential is the standard of excellence within the hazardous materials management community. The CHMM is certified by the CESB who also certify PE, CIH, CSP and other scientific practices organizations. The CHMM® program was created in 1984 by the Institute of Hazardous Materials Management (IHMM) to identify professionals possessing a superior body of knowledge and expertise.
